Solutions for Travel Agencies

Hear it from a live case

Matkapörssi ✈️

"We all know, that profit margins are low, so everything we can do automatically, we have to do"

Quote: Veli-Pekka Tahkola, Matkapörssi.

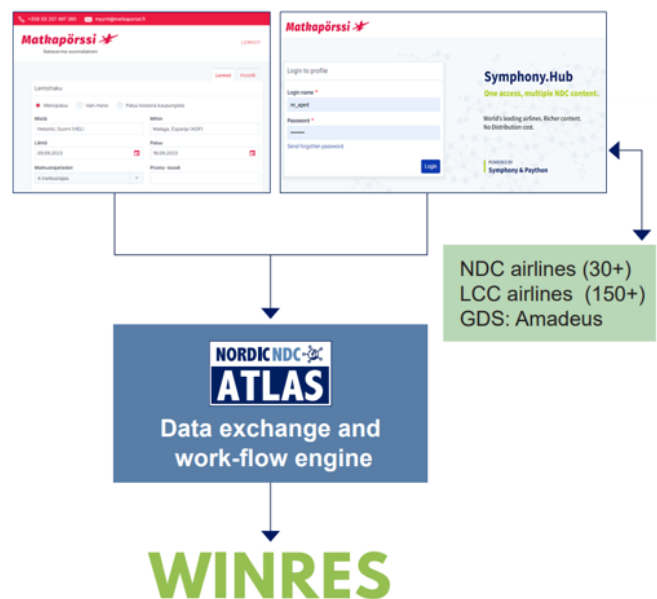

Save time and optimize your business

With the new data connection between Nordic NDC's "Atlas" and Comgate's "Winres", agencies can now save a lot of time by not having to enter data manually into Winres. Agencies can also improve margins from savings on ticketing fees and higher income from SPRK Group bookings and NDC & LCC bookings from Symphony.
